RE: PETITION
APPROVAL TO SHARE PROCEEDS FROM THE SALE
OF RENEWABLE ENERGY CREDITS WITH CUSTOMERS
DOCKET NO. E002/M-15-_____

Dear Mr. Wolf:

Northern States Power Company, doing business as Xcel Energy, submits to the Minnesota Public Utilities Commission this Petition for approval to share in the net proceeds from the sale of renewable energy credits (RECs) pursuant to the Commission's Order of May 17, 2013 in Docket No. E-002/M-12-1132.

Please note that certain portions of our Petition have been designated as Trade Secret information pursuant to Minnesota Statute § 13.37, subd. 1(b). In particular, the information designated as Trade Secret derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use.

We have electronically filed this document with the Commission, which also constitutes service on the Department of Commerce and the Office of the Attorney General – Antitrust and Utilities Division. A summary of the filing has been served on all parties on the Company's miscellaneous electric service list.

Mr. Daniel P. Wolf

IN THE MATTER OF THE PETITION FOR
APPROVAL TO SHARE PROCEEDS FROM
THE SALE OF RENEWABLE ENERGY
CREDITS WITH CUSTOMERS

DOCKET NO. E002/M-15-_____

PETITION

OVERVIEW

Northern States Power Company, doing business as Xcel Energy, submits to the Minnesota Public Utilities Commission this Petition for approval to share in the net proceeds from the sale of renewable energy credits (RECs) pursuant to the Commission's Order of May 17, 2013 in Docket No. E-002/M-12-1132.

The Company has acquired a large portfolio of renewable energy credits (RECs) to satisfy our obligations under the Minnesota Renewable Energy Standard (RES). We have recently sought out opportunities to sell these RECs in premium markets in order to deliver value and cost savings to customers. As a result of these efforts, we were able to sell some of our excess RECs at a significantly higher price than most utilities are selling RECs for right now. We may also have the opportunity to make additional REC sales.

We propose to credit customers 85 percent of the net proceeds from the sale of these RECS through the RES Rider and retain 15 percent of the proceeds. Our proposal to share in the proceeds is an opportunity to provide additional revenue to customers as a result of REC sales while also motivating the Company to make additional efforts which require initiative, innovation, and trading acumen to seek out potential opportunities and negotiate the highest price possible for the RECs.

The revenue resulting from the REC sale is an incremental benefit that customers would not otherwise receive. We bring forward this request at this time because we believe that this is the type of effort that further aligns customer and Company

PUBLIC DOCUMENT
TRADE SECRET DATA EXCISED

interests in a manner like that supported in the current e21 initiative. This revenue-sharing mechanism will better align utility business model and economic incentives with customer benefits and expectations, and enabling innovation and flexibility.

If the Commission deems our sharing proposal appropriate, we also request similar treatment for potential additional REC sales going forward.

I. SUMMARY OF FILING

A one-paragraph summary is attached to this filing pursuant to Minn. R. 7829.1300, subp. 1.

II. SERVICE ON OTHER PARTIES

Pursuant to Minn. R. 7829.1300, subp. 2, the Company has served a copy of this filing on the Office of the Attorney General – Antitrust and Utilities Division. A summary of the filing has been served on all parties on the Company’s miscellaneous electric service list.

III. GENERAL FILING INFORMATION

Pursuant to Minn. R. 7829.1300, subp. 3, the Company provides the following information.

A. Name, Address, and Telephone Number of Utility

Northern States Power Company, doing business as:
Xcel Energy
414 Nicollet Mall
Minneapolis, MN 55401
(612) 330-5500

B. Name, Address, and Telephone Number of Utility Attorney

Alison C. Archer
Assistant General Counsel
Xcel Energy
414 Nicollet Mall, 5th Floor
Minneapolis, MN 55401
(612) 215-4662

PUBLIC DOCUMENT
TRADE SECRET DATA EXCISED

C. Date of Filing

The date of this filing is May 28, 2015. The Company requests approval to share the proceeds from REC sales between the Company and customers.

D. Statute Controlling Schedule for Processing the Filing

Under the Commission's Rules, the proposed sharing of REC sales proceeds discussed in this Petition falls within the definition of a "miscellaneous" filing under Minn. R. 7829.0100, subp. 11, since no determination of Xcel Energy's general revenue requirement is necessary.

E. Utility Employee Responsible for Filing

Paul J Lehman
Manager, Compliance and Filings
Xcel Energy
414 Nicollet Mall, 7th Floor
Minneapolis, MN 55401
(612) 330-7529

IV. MISCELLANEOUS INFORMATION

Pursuant to Minn. R. 7829.0700, the Company requests that the following persons be placed on the Commission's official service list for this proceeding:

Alison C. Archer
Assistant General Counsel
Xcel Energy
414 Nicollet Mall, 5th floor
Minneapolis, MN 55401
alison.c.archer@xcelenergy.com

Regulatory Records
Xcel Energy
414 Nicollet Mall, 7th Floor
Minneapolis, MN 55401
regulatory.records@xcelenergy.com

Any information requests in this proceeding should be submitted to the Regulatory Records address above.

V. DESCRIPTION AND PURPOSE OF FILING

We request approval to share in the net proceeds from the sale of RECs with our customers through the Renewable Energy Standard (RES) Rider. Under our proposal, customers would be credited 85 percent of the net proceeds and we would retain 15 percent.

A. Background

On October 15, 2012, the Company filed a Petition with the Commission requesting approval to share proceeds from the sale of RECs between customers and the Company. The Commission issued its order in the matter on May 17, 2013 and determined that the Company should return the proceeds from REC transactions to customers through the RES Rider unless the Commission makes a specific determination to allow a sharing of the proceeds.

The Order went on to say that Xcel is authorized to make future requests for sharing net proceeds and provided a list of information that should be included in any future requests.

We recently sold additional RECs from the Fibrominn biomass (turkey litter) plant and in accordance with the Commission's Order, we are now requesting approval to share the proceeds from this sale, and potential future sales, between customers and the Company. We provide additional discussion and satisfy the information required by the Commission's Order below.

B. Areas of Commission Focus

The Commission's May 17, 2013 Order noted that Commission decisions regarding proceed sharing would focus on three specific components. We provide these components as well as a discussion below.

- 1. A demonstration that the net proceeds resulting from credit trading over a designated period are significant and merit a reward.*

The proceeds from this specific sale are *[TRADE SECRET DATA BEGINS* *TRADE SECRET DATA ENDS]* which we consider to be significant.

PUBLIC DOCUMENT
TRADE SECRET DATA EXCISED

Unlike electric energy sales, there is no established exchange or centralized market where buyers and sellers of RECs can make transactions. Instead, sellers of RECs must seek out buyers, or vice versa, and transact REC sales and purchases. Accordingly, we have spent considerable time researching renewable portfolio standards across the United States to identify opportunities for our excess REC inventory. Our interest is in selling these RECs at the highest price possible in order to gain maximum value. As a result of our efforts we determined that North Carolina's renewable energy standard requires a portion of electricity to be produced using poultry litter, which can be satisfied through the purchase of turkey litter RECs. We also learned that there are currently very few facilities in North Carolina that can supply such credits.

In light of this knowledge, over the past several years, we have taken efforts to research the North Carolina requirements, visited potential buyers, developed relationships, and registered our facilities to enable the RECs from the Fibrominn facility to satisfy a portion of the poultry litter requirements established by North Carolina's renewable energy standard. As a result of these efforts, we have now been able to sell some of our excess RECs in a premium market to a North Carolina utility at a significantly higher price than most utilities are selling RECs for right now.

Our proposal to share in the proceeds is an opportunity to provide additional revenue to customers as a result of REC sales while also motivating the Company to make additional efforts which require initiative, innovation, and trading acumen to seek potential opportunities and negotiate the highest price possible for our RECs. The revenue resulting from the REC sale is an incremental benefit that customers would not otherwise receive.

While we acknowledge that customers pay the costs of acquiring the renewable resources, the benefit of those costs, in addition to the acquisition of energy that serves customer needs, includes RECs that can be used to comply with the RES. Because we have an excess supply of RECs at this time, customers can both receive the benefit of RES compliance and additional revenue from the sale of RECs.

While we will continue to seek out these types of opportunities for our customers and are proud of what we have been able to achieve, we do not think it is unreasonable to recognize and reward the Company's efforts that have produced sale proceeds that are much greater than the proceeds produced by many REC sales. In addition, we believe that this type of incentive is the type of effort that is supported by the current e21 initiative and its goal of further aligning customer and shareholder interests.

PUBLIC DOCUMENT
TRADE SECRET DATA EXCISED

2. *A documentation of the specific costs of each transaction.*

The specific, direct, cost of this transaction is a \$100 Midwest Renewable Energy Tracking System (MRET's) transfer fee. We provide documentation of this fee as Attachment A. There are also indirect costs that may apply to several transactions and which are accounted for in the manner similar to our other system resource trading costs.

3. *A demonstration of, and basis for, the appropriate award.*

We propose to retain a 15 percent share of the proceeds from the sale of these RECs. We believe this is an appropriate level because it is in line with percentages that have been approved in other jurisdictions and similar matters and provides an incentive for even greater initiative, innovation and deal making.

Other commissions have approved sharing mechanisms in conjunction with REC sales. For example, we retain 10 percent of revenue generated by the sale of RECs in South Dakota¹ and a range of 10-20 percent, depending on the REC deal type, in Colorado.²

C. Order Requirements

In addition to the above focus areas noted by the Commission's May 17, 2013 Order, we also provide the following information as required by Order Point 2 in support of our request.

- a. *The amount of the proceeds to be shared with ratepayers, net of any costs associated with the transactions, including replacement costs and an accounting for the assigned cost of the credits sold.*

The contract, which is provided as Attachment B to this petition, sold 20,000 Fibrominn RECs from the Minnesota allocation for a price of **[TRADE SECRET DATA BEGINS**

TRADE SECRET DATA ENDS]. Once the \$100 MRET's transfer fee has been deducted, we propose to share 85 percent with Minnesota customers, a value of **[TRADE SECRET DATA BEGINS**
TRADE SECRET DATA ENDS]. The Company's 15 percent

¹ Docket No. EL09-029

² Colorado Public Utilities Commission Docket No. 14A-0580E

PUBLIC DOCUMENT
TRADE SECRET DATA EXCISED

share would be a value of *[TRADE SECRET DATA BEGINS
TRADE SECRET DATA ENDS]*.

There would not be any replacement costs since we have a sufficiently large portfolio of RECs to satisfy our obligations under the RES.

b. An accounting of all transaction costs associated with the sale, purchase, or replacement of credits.

The only direct transaction cost associated with this REC sale is a \$100 MRETS transaction fee which reduces the net proceeds to be shared through the RES Rider. Below, Chart 1 provides the proposed journal entries we would make for this overall transaction.

Chart 1: Proposed Journal Entries

[TRADE SECRET DATA BEGINS

TRADE SECRET DATA ENDS]

c. A proposal for the appropriate level of sharing between Xcel and the ratepayers.

We propose to retain a 15 percent share of the proceeds from the sale of these RECs. As discussed in the previous section, we believe this is an appropriate level because it is in line with percentages that have been approved in other jurisdictions and provides an incentive for even greater initiative, innovation, and deal making.

PUBLIC DOCUMENT
TRADE SECRET DATA EXCISED

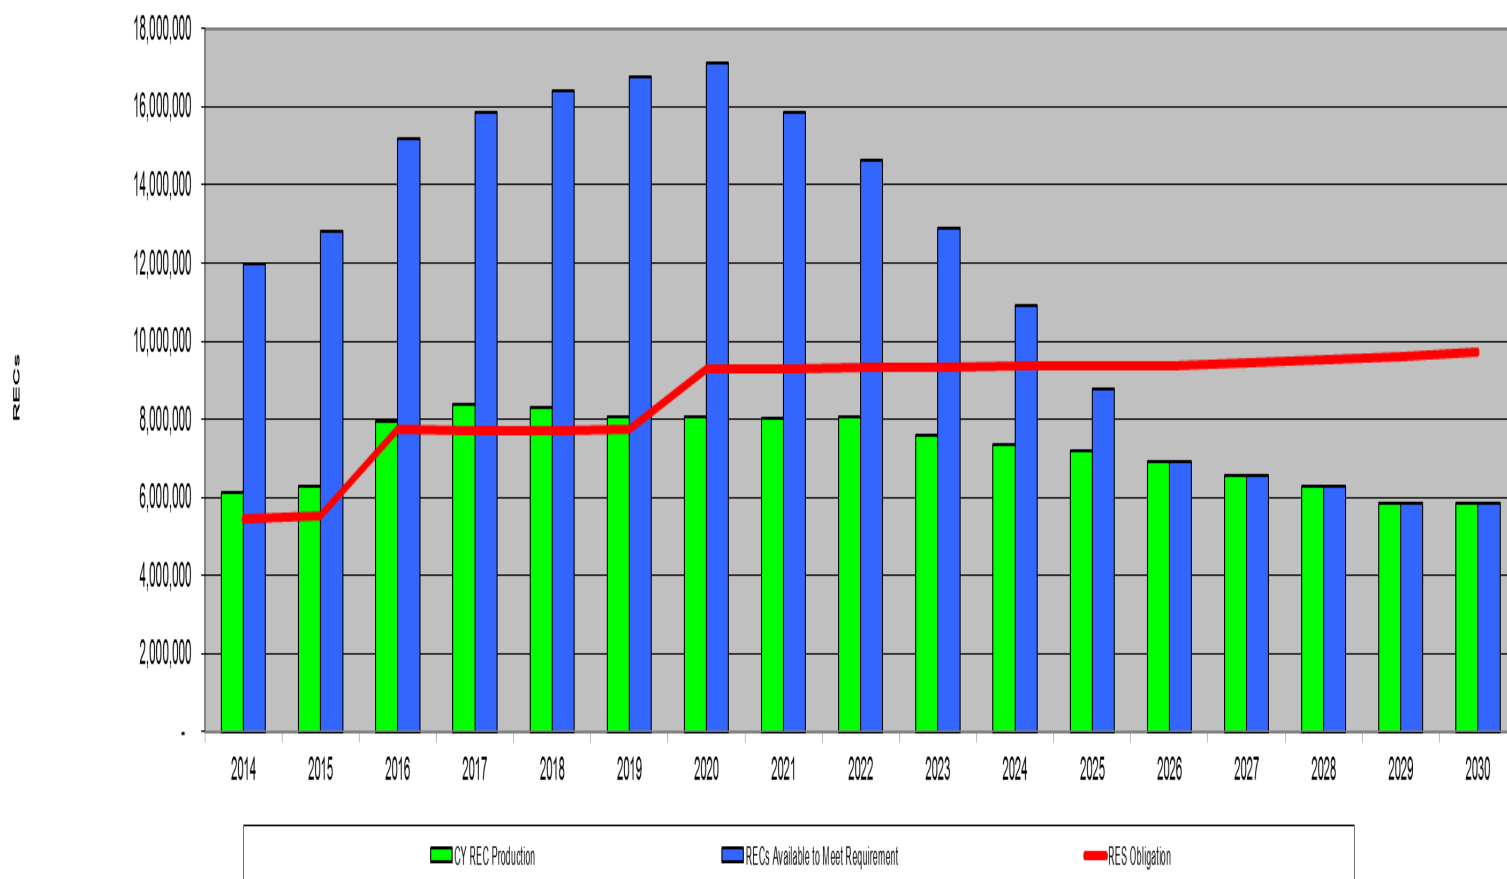

d. A demonstration that the credits sold have been replaced or an explanation of why replacement is not necessary.

As noted above, replacement of these credits is not necessary due to our large existing REC bank.

e. A demonstration that Xcel remains in compliance with Minn. Stat. § 216B.1691 as well as any requirements ordered by the Commission in its biennial review of Renewable Energy Standard compliance under § 216B.1691.

As demonstrated by Figure 1 below, we confirm that we forecast to remain in compliance with Minn. Stat. § 216B.169 through 2024 even after the sale of these RECs.

Figure 1: Minnesota REC Compliance Chart

PUBLIC DOCUMENT
TRADE SECRET DATA EXCISED

f. The number and type of credits sold and the facilities from which they were sourced.

We sold 20,000 poultry litter RECs from the Fibrominn facility near Benson Minnesota. The Fibrominn facility is a 55 MW biomass power project that was one of three projects that entered into a PPA with the Company in response to the biomass mandate (Minn. Stat. §216B.2424). The Fibrominn PPA was approved in the Commission's September 11, 2000 Order in Docket No. E002/M-00-1169.

g. If the Company has purchased replacement credits, the number and type of these credits and the facilities from which they were sourced.

We did not purchase any replacement credits.

h. The seller of the replacement credits.

We did not purchase any replacement credits.

i. The date of sale and the sale price for each transaction.

As evidenced by the contract provided as Attachment B, the effective date of the sale was March 30, 2015 and the date of the REC transfer was April 20, 2015. The contract sold 20,000 Fibrominn RECs from the Minnesota allocation for a price of **[TRADE SECRET DATA BEGINS
TRADE SECRET DATA ENDS]**.

j. A confirmation that all net proceeds will be returned to ratepayers through the RES Rider.

We currently propose returning 85 percent of the net proceeds to the customers through the RES Rider and retaining 15 percent. Due to this proposal, we have not yet taken action to return any proceeds to customers through the RES Rider but confirm we will act in accordance with the Commission's direction on our request.

D. Approval of Potential Additional Opportunities

If the Commission approves our request for sharing in the proceeds of the current contract for the sale of 20,000 RECs, we request approval of this same sharing mechanism for potential additional opportunities going forward. In the interest of

PUBLIC DOCUMENT
TRADE SECRET DATA EXCISED

preserving Commission oversight of these potential future transactions, we propose providing the above supporting information required by the Commission's May 17, 2013 Order in a compliance filing within 30 days of any future sale contract being executed.

VI. EFFECT OF CHANGE UPON XCEL ENERGY REVENUE

This sharing proposal is designed to share the net revenues from REC sales between customers and the Company. This transaction would increase net revenues to Xcel Energy by an estimated *[TRADE SECRET DATA BEGINS TRADE SECRET DATA ENDS]*. Future transactions would increase revenues to Xcel Energy and would be determined by the number of RECs sold and the sale price.

CONCLUSION

Xcel Energy respectfully requests that the Commission approve our proposal to share in the net proceeds from the sale of RECs with our customers through the Renewable Energy Standard (RES) Rider. Under our proposal, customers would be credited 85 percent of the net proceeds and we would retain 15 percent.
