

May 29, 2019

Daniel P. Wolf
Executive Secretary
Minnesota Public Utilities Commission
121 7th Place East, Suite 350
Saint Paul, Minnesota 55101-2147

RE: **Letter of the Minnesota Department of Commerce, Division of Energy Resources**
Docket No. E015/GR-16-664

Dear Mr. Wolf:

In Minnesota Power's (MP or the Company) most recent rate case, Docket No. E015/GR-16-664 (the 2016 Rate Case), the Minnesota Public Utilities Commission (Commission) approved a new Business Development Incentive Rider (BDIR), which provides temporarily discounted demand charges to customers with new or incremental loads of 350 kilowatts (kW) or larger. Each participating customer is required to enter into a six-year electric service agreement (ESA), with the discount applying for the first five of those years at a declining rate over the term.

Pursuant to Order Point 78 of the Commission's March 12, 2018 Order in the 2016 Rate Case, MP is required to:

- obtain approval of amendments to existing or new ESAs executed pursuant to the BDIR;
- file for approval of any new or amended ESA within 30 days after signing the agreement;
- include in the ESA filing the incremental revenue and incremental costs associated with the new ESA; and
- conduct energy audits for all BDIR customers.

ESAs executed pursuant to the BDIR are deemed approved if no party objects to the ESA within 30 days of the filing date.

On April 29, 2019, MP filed with the Commission a new BDIR ESA with Nordic Metals, signed on March 29, 2019. The Minnesota Department of Commerce, Division of Energy Resources (Department) reviewed MP's new ESA with Nordic Metals and concludes that MP has reasonably complied with all of the filing requirements imposed by the Commission's March 12, 2018 Order.

The Department does, however, note for the Commission one possible minor concern related to whether the structure of Nordic Metal's ESA is consistent with the BDIR Tariff language.

Specifically, paragraph 10 of the proposed ESA with Nordic Metals states that Nordic Metals will be taking service at *two* delivery points at its property in Deerwood, Minnesota.¹ The Company's BDIR states:

For new or existing customers, Qualified Billing Demand is the new load of 350 kW or greater *at a single delivery point*.²
(emphasis added)

When Nordic Metals applied for the BDIR discount, it completed two separate applications, one for each of its two delivery points, and each application individually satisfied the criteria to receive the discount.³ The two applications were then combined into a single ESA which reflects the aggregate load expected at the two delivery points.

The BDIR tariff does not explicitly address the treatment of a customer with multiple delivery points, and because Nordic Metals will be taking service at two delivery points, rather than a single delivery point as contemplated in the tariff, MP's application of its BDIR in this instance may be different than what was intended or expected by the Commission. However, because both of the delivery points individually meet the requirements to receive the BDIR discount, including the requirement that incremental revenues exceed incremental costs, the Department concludes that the addition of Nordic Metals load will be beneficial to MP's entire system and its other ratepayers, which is the intention of the BDIR.

If the Commission questions whether the language of MP's BDIR allows for a customer with multiple delivery points that individually meet the criteria to receive the discount, the Department recommends that the Commission direct MP to propose clarifying tariff language. If the Commission does not have any concerns, the proposed ESA can be approved with no further action.

The Department is available to answer any questions that the Commission may have.

Sincerely,

/s/ CRAIG ADDONIZIO
Financial Analyst
