##### **C. Date of Filing**

The date of this filing is May 5, 2021.

##### **D. Controlling Statute**

Exclusive electric service territories have existed in Minnesota since 1974, and are considered necessary to encourage the development of coordinated statewide electric service, to eliminate or avoid unnecessary duplication of utility facilities, and to promote economical, efficient, and adequate electric service to the public.

Minn. Stat. §216B.37 provides electric utilities the exclusive right to serve customers within an assigned service territory, and Minn. Stat. §216B.40 prohibits the provision of

retail electric service by another utility within that assigned service territory, absent written consent.

Minn. Stat. §§216B.37-216B.47 provide the terms and conditions under which a city may extend retail electric service throughout the corporate limits of the city and authorize and permit electric utilities to define and revise their electric service territories by their written consent and agreement. Thus, two parties may agree to modify the boundary between their service territories by requesting Commission approval after notice and hearing under Minn. Stat. §216B.39, or service by exception is consented to under Minn. Stat. §216B.40.

In this circumstance, the land at issue in the Agreement is in Xcel Energy's service territory. Xcel Energy does not provide service to any customers on the land at issue. Waseca annexed the land and pursuant to Minn. Stat. §216B.44 decided to provide service in the area it had previously annexed. Consistent with Minn. Stat. §216B.39, this agreement avoids the unnecessary duplication of facilities, provides adequate electric service to all areas and customers affected, and promotes the efficient and economical use and development of the electric systems of the contracting electric utilities. The Agreement in this petition includes a permanent boundary change for 1.02 acres of land, agreed to by both parties as shown in the Agreement.
