

LWECS New Complaints, Monthly Report to the Minnesota Public Utilities Commission

In order to comply with the permit condition for monthly complaint reporting, complete the complaint form monthly and file it in the Minnesota Public Utilities Commission and Department of Commerce e-docket system. The monthly complaint report permit requirement is typically found in permit condition III.H.4. or 5.8. Substantial complaints must be reported within 24 hours of receiving the complaint. Check your permit for requirements for your project definitions.

Please file this form in the project e-docket as a compliance filing with the title: Complaint report for (month, year), New Complaints filed (#). Upload complaint forms as read-only spreadsheets, not as a PDF document.

Instructions: e-file this spreadsheet by the 15th of the month, for the prior calendar month.

Complete and file the form with the previous calendar month's complaints. If there were no complaints, complete the "date received" box with the last day of the previous month's date and write "no complaints received" in the "complainant information" column. Maintain all prior complaints from earlier reports on the same form, so that the log contains all complaints received in consecutive order. Insert a new row above the last complaint filed so that the most recent complaint is at the top of the spreadsheet.

If the complaint contact for your project changes, efile a letter as PDF in the project docket with the current complaint contact information. When uploading to e-Dockets, be sure to identify the filing in the additional information field as "UPDATED COMPLAINT CONTACT INFORMATION"

If you have any questions about using this form, please contact Cynthia Kahrman at 651-539-1840 or cynthia.kahrman@state.mn.us
