2020 Retail Sales of Electricity and Renewable Energy Information

Question	2020 Total Retail Sales of Electricity from All Sources (MWh)
1.	173826

2. Directions for Question 2:

Enter information in the green cells for the following two tables (the first table is generation from facilities in Wisconsin, the second table is for facilities outside Wisconsin). Note that "RPS" stands for Renewable Portfolio Standard. "Other Renew Programs" represents all optional renewable tariff offerings, such as Green Pricing, Community Solar, and Renewable Riders, in which customers voluntarily participate in buying electric generation from renewable resources. Break down renewable resource generation per resource type, by either designating as intended for the "RPS" or "Other Renew Programs" in separate columns.
