On agenda: 12/8/2016 **Final action:**
Title: ** E002/M-15-891 Northern States Power Company, d/b/a Xcel Energy
In the Matter of the Petition of Xcel Energy for Approval of a Modification to its Transmission Cost Recovery (TCR) Tariff, 2016 TCR Rate Factors, and 2015 True-up and Compliance Filing.

Should the Commission approve Xcel Energy's request to modify its TCR Tariff, update its 2016 TCR rate factors and allow a true-up in the TCR rider for 2015?

Should Accumulated Deferred Income Tax (ADIT) balances be prorated or non-prorated when the Company forecasts its test year for rate base. And, if the Commission decides proration of the ADIT balances is required, must the true-up also be calculated using the proration method when adjusting for actual ADIT? (PUC: Schwieger, Morrissey)
