and Electric Utilities**

In the Matter of Minnesota Public Utilities Commission (Commission) Inquiry into the Impacts of Severe Weather in January and February 2019 on Utility Operations and Service.

1. What impact did the cold weather in January and February 2019 have on utility operations and service?
2. Were there lessons learned from this severe weather event that can be used to keep utility systems operating reliably and safely under extreme, challenging circumstances in the future?
3. Should the Commission approve one or more of the parties' recommendations that address the future reliability of utility operations and service? (PUC: **Bender, Manning, Harding**)
